

Lock Blocks is a modular indoor and outdoor play trail system with configurable pathways designed to develop balance and coordination. Made from durable play-grade timber and HDPE, it features secure interlocking components with slip-resistant surfaces for safe active play. The system is fully stackable for compact storage when not in use, making it ideal for flexible spaces.

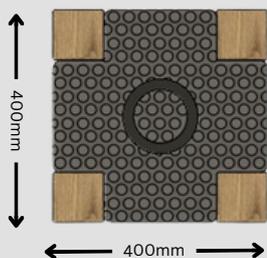

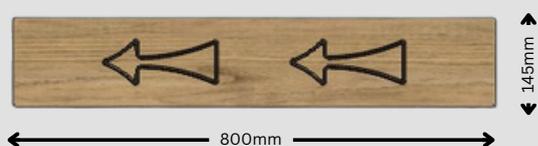

Product code	100-10-034
Materials	High density polyethylene/rubber play grade timber
Block Dimensions	400x400x195mm - 8kg
Bridge Plank	800x145x35mm - 2kg
Curved Step	414x233x86mm - 2kg

Designed to British and European standards  
BS EN 1176
